AFFAIRS IN BROOKLYN.

TO RETAIN EAST SIDE PARK LANDS.
 The Park Commissioners yesterday adopted resolutions to the effect that it was desirable to retain the unsold portion of the East Side Park lands between the Eastern Parkway and Flatbush, and to acquire the four or five acres additional beyond the city line if it could be done at a reasonable price and improve the whole tract as a public park, and that steps be taken at once to secure the legislation to accomplish this purpose. The committee entrusted with the matter, consisting of Dr. Stors, General Woodward and D. M. Somers, presented a long report with the resolutions. SAMMS TELLS THE STORY OF THE MURDER.
 Reuben Samms, the negro who fatally stabbed his brother Tobias on Sunday at the Chelsea Flats in West Twenty-seventh-st., was taken, handcuffed, to Jefferson Market Court yesterday. Early in the morning he surrendered himself to Captain Reilly, Justice Duffy sent him to the court's office, and there he told his story to Coroner Hanly, who committed him to the Tombs for trial. Samms said that the blows he struck were in self-defense, and that the cut in the heart was occasioned by a fall on the knife, and not by a blow. Samms's story was that he was cleaning a lamp-shade in the evening, when Tobias entered the room and asked for the key to his bedroom. Reuben refused to give up the key, and a quarrel followed. Reuben threw the shade at his half-brother, but it did not hit him. Tobias then jumped upon Reuben, and throwing him on the floor, proceeded to pummel him. Reuben drew a knife from his pocket, but before he could use it his half-brother had taken it away. He regained the knife after severely cutting his hand, and cut Tobias in the back and side. Then Tobias, attempting to better his position, fell upon the knife, which entered his chest. Reuben said he did not know that he had killed his half-brother until he saw the story in the morning papers. The prisoner is a typewriter and stenographer, and is an unusually bright example of his race.

He declared that the testimony for the prosecution was the result of a conspiracy on the part of several of the witnesses, and the witness who had been first accused of the murder. The young had been the wife of Quaterback, who sat beside him all day, appeared deeply affected by the plea of her husband's lawyer. Deafness, Catarrh, Throat and Lungs

AND ALL DISEASES OF THE
Dr. E. B. Lighthill,
 Specialist for Diseases of the Ear, Throat, Lungs and Nasal Passages.

NO. 28 EAST 22D ST., NEW-YORK.

Dr. Lighthill's method of treatment is entirely his own, and is universally recognized as an important advance in medical science. His applications reach the diseased parts in a manner so superior and effective that relief is usually experienced at once, and complete cures are often effected in the most difficult and obstinate cases of deafness and discharges from the ear, Catarrh in its most offensive form, the various disorders of the Throat and air passages, persistent hoarseness and loss of voice, Asthma, Chronic Bronchitis, and Consumption in its earliest stages of development. And it is one of the happy features of his practice that the treatment does not give the least pain, discomfort or distress, and that it can be readily administered in cases of children or the most nervous person. An honest opinion will invariably be given, and no case will be accepted for treatment which does not offer a reasonable chance of success. In evidence of Dr. Lighthill's success, we publish below a few of the many testimonials in his possession.

From Mr. H. F. Degraaf, President of the Bowery National Bank.
 New-York, May 7, 1888.

My Dear Sir: It affords me great pleasure to join the long list of grateful patients who have been relieved from troublesome and obstinate complaints by your superior skill. My case was chronic catarrh, from which I had suffered to such an extent that it weakened my general health, and finally gave rise to such severe pain in and about the head and throat that it prevented me from sleeping and alarmed my family. I am happy to state that the very first application of your treatment gave me prompt and decided relief. In a few days the pain had disappeared and by degrees the other distressing symptoms characteristic of catarrh yielded to your administration, until I now find myself completely cured. I therefore cheerfully tender you this testimonial of your skill and success, in the hope that others may be benefited by its publication.

From Mrs. Eliza B. Burns, the Well-Known Teacher of Phonography.
 No. 24 Clinton Place, New-York, March 25, 1889.

I have great pleasure in stating that Dr. E. B. Lighthill has very successfully treated my grandson, eight years of age, for catarrh, deafness and thickness of speech.

From Mr. W. Phillips, Publisher of the Elite and Business Directories, 91 Nassau-st., New-York.
 I am indebted to Dr. Lighthill's skill for my complete and permanent restoration to perfect hearing and the successful eradication of the distressing noise in the head which accompanied the deafness and made my life a burden. In the interest of humanity I state these facts so that others may receive similar benefits.

W. H. PHILLIPS,
 Residence, 141 East 90th-st.

Radical and Permanent Cure of Catarrh.
 No. 63 Broadway, New-York, May 1, 1888.

Dear Sir: It gives me great pleasure to testify that your treatment of my wife for chronic catarrh of long standing and great severity resulted in a complete, radical and permanent cure. Your success in her case furnishes the most convincing proof that you can eradicate this pernicious disease, root and branch, even in our treacherous and unfavorable climate, and that it will stay cured. My wife has been entirely free from every symptom of catarrh ever since you discontinued treatment.

J. A. HEAD.
 A mass of testimonials of similar trend and character to those above, from parties of the highest social standing, can be seen at Dr. Lighthill's office.

MANAGERS OF THE GIANTS IN DESPAIR.

NO ACTION BY THE ALDERMEN ON THE POLO GROUNDS QUESTION.

The Polo Grounds case was expected to come up before the Board of Aldermen yesterday. No action was taken, however. The question may come up at next Tuesday's meeting, and it may hang fire all summer. This would mean that the street would not be cut through, but at the same time the New-York club would not be able to use the grounds. The stockholders of the Metropolitan Exhibition Company have become disgusted and say that they will make no further effort to keep the grounds. They will make the recent facts in the case are not surprising at the company's action. The Aldermen's demands for favors during recent years have been such that the club would go to Oakeshott or the Sandwich Islands to get out of their clutches. It was estimated yesterday that the management of the Giants could afford to move to St. George, Staten Island, and have their gate receipts decreased \$30,000 rather than remain at the Polo Grounds. Some of the Aldermen's demands in past seasons for season tickets have been as outrageous as excessive. With the number given out every political leader in town has been liberally supplied, said a sympathizer with the baseball men yesterday.

John B. Day, the president of the New-York club, when seen last night looked careworn and weary. "I have about given up all hope of holding the Polo Grounds," said Mr. Day last night. "I can't afford to bother with the matter any further, and shall call upon Erastus Wiman in the morning, and see what arrangements we can make to have the team play at St. George for the summer. I have done all I can, and shall go no further."

Duryston & Blackhurst, who have been trusted with the legal technicalities of the case for the club, were rather despondent. Manager James Mutrie was the only person seen who was not despondent. "Oh, we have not lost the Polo Grounds yet," said he. "Never give up the ship has always been my motto, and I see no reason for changing it now."

President Hewitt, of the Washington club, started on the midnight train for Washington last night. He was another specimen of despair. "Yes, Ward has still refused to sign with me," said he, "but I have still some hopes that he will change his mind. I shall make no further effort, and if Ward again changes his mind he will have to come to me. I shall never consent to Ward's going to Boston, and I am positive that Mr. Day thinks the same as I do."

The New-York team will cross bats with the Harvard College nine at Oakland Park, Jersey City to-day. The Brooklyn and Metropolitan clubs, the old-time adversaries, will play at Washington Park, Brooklyn, to-day. The three Brooklyn pitchers will pitch for three innings each, while Lynch will pitch five and Beacom four for the Mets.
